

*With thanks to*

Many wonderful thanks go to AGL donation of the building and its relocation to the Hunter Wetlands Centre and for the opportunity for Hunter Wildlife Rescue (NATF) to have its own physical base. After working from member's homes for the past 40 years, AGL have now given us the opportunity to better support the volunteers and community in assisting injured, sick and orphaned wildlife.

In addition, staff donated their time to help paint the building – the first step in our new journey. Thank you Naomi and your team.

AGL NGSF Grant, 2014 has permitted Hunter Wildlife Rescue (NATF) to purchase a smart TV allowing state of the art technology to be available to enhance the delivery of rehabilitation training to members.

The 2015 AGL NGSF Grant will support the purchase of timber to build a deck extension.

Relocation March 2015
