

## Inaugural event: Easter Fun Day

Easter Saturday saw Hunter Wildlife Rescue open its doors to the community and what a thrill that was! Over 30 children and their families took the opportunity to participate in art and craft activities around the Easter Bilby. To raise public awareness of endangered Australian species a campaign has been launched to replace the Easter bunny with the Bilby, hence we now have the Easter Bilby and Chocolate Bilbies!

The Centre was filled to capacity as families wandered through, looking at static displays and asking questions. Our Centre at last will be the opportunity to share with community the extraordinary efforts of wildlife volunteers and the vast diversity of wildlife that crosses our paths.
